

## **Memories of Valentines Day**

### **Condensed from the Memories of Esther Hebrew**

I remembered Valentine's Day; we always made a great big Valentines Box and decorated it. It was beautiful. We spent days making Valentines. You would put who you were sending valentines to in the top of the box. Then when Valentine's Day came the teacher would open it and read out these Valentines and pass them out. Some of the children never received any.

That really impressed me. I gave everybody a Valentine. You made these at home you didn't buy them. You took crape paper and put glue on it and ruffle it around your heart and cut out figures out of the funny papers. That is what you did for Valentine's Day.
